DATE: July 5, 2016

INFORMATION ITEM

SUBJECT	TransFinder Update
RATIONALE	Provide information to the School Board related to our TransFinder routing software and answer questions.
ESTIMATED COST	N/A
BUDGET CATEGORY	N/A
LEGAL REFERENCE	N/A
ADMINISTRATIVE CONTACT	Mike Isbell, Supervisor of Maintenance & Transportation
SUPERINTENDENT'S RECOMMENADATION	

A live presentation will be given and will highlight the following options with the system:

Student Database Tracking

- Provides address of student, emergency contact information.
- Allows exceptions to be created in the event that a student may have more than one bus stop, which is very helpful when dealing with elementary students and babysitters.
- Manages bus routes, students and drivers. Allows us to see and track the miles of a school bus route.
- Allows us to print a complete list of all students assigned to a particular route in the event of an emergency.
- Gives an overview of all bus routes and pick up/drop off locations.
- Gives print out of all routes to give to substitutes and to use for quick reference.
- Allows easy access to view efficiencies.
- Allows field trip driver tracking. Currently we have completed over 400 field trips since the beginning of last school year and have travelled more than 40,000 miles.
